Smart Casino Solutions for
EFFICIENT CASINO OPERATIONS

Dallmeier Smart Casino Solutions combine the leading Panomera® multifocal sensor technology with recording solutions and Dallmeier HEMISPHERE® software modules for various Casino areas and applications.

With Smart Casino Solutions from Dallmeier, Casinos minimise risk, work more efficiently, improve decision making and automate table gaming:

• Increased table gaming profitability with table game automation

• Significantly improved surveillance at lower total cost with Panomera® technology

• Optimised marketing with video- and AI-based data analysis

HEMISPHERE® SeMSy®:
THE "CASINO OPERATING SYSTEM"

Managing complexity and enabling cross-departmental collaboration is an essential part of any optimisation initiative in casino operation.

HEMISPHERE® SeMSy® enables the integration of third party systems (e.g., CMS, POS, access control, fire detection systems, dealing shoes...) and the display of all sorts of analysis data. Individual widgets allow personalised, function-optimised tools for different departments.

The Dallmeier HEMISPHERE® SeMSy® „Casino Operating System" helps standardize a variety of casino tasks.

• Improved compliance with in-house and by external bodies (e.g. regulation authorities)

• Efficient cross-departmental collaboration

• Interfaces to a wide variety or third party solutions

Panomera® Camera Technology:
COMPLIANCE AND ANALYTICS

Casinos are being required to satisfy stricter regulations imposed by the regulation authorities. The Dallmeier Panomera® W camera series supports native H.265 and integrates up to eight 4K sensors in one camera system. As a result, it offers operators an unrivalled, undistorted 360° view of all activity on the gaming floor.

- Unrivalled 360° overview for much better control
- Reduction of the number of required cameras by a factor of 20 or more
- Reduction of tracking time by up to 90 %*

Full control: With Panomera® W8 cameras, operators can fulfil their surveillance tasks much more efficiently.

*Dallmeier customers report enormous time savings for their surveillance tasks, such as locating a person of interest in less than three minutes instead of over 20 minutes.
